## PROP 65 WARNINGS

California's "Safe Drinking Water and Toxic Enforcement Act of 1986", also known as "Proposition 65", requires businesses to provide a clear and reasonable warning before knowingly and intentionally exposing California consumers to one or more chemicals known to the state of California to cause cancer and birth defects or other reproductive harm.

Just because a product bears a Proposition 65 warning does not mean that the product itself is unsafe. Proposition 65 is a "right to know" law rather than a product safety law. The intent of the law is to inform Californians before they possibly are exposed to a Proposition 65 list of chemicals.

On August 30, 2018, new Proposition 65 regulations become effective that set forth certain warning language and methods that businesses may use to warn for Proposition 65 exposures. One of these approved warnings which applies to all of our products is the following:

**WARNING:** This product can expose you to chemicals, including nickel, which are known to the State of California to cause cancer and reproductive harm. For more information – [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

These chemicals are contained in varying amounts within the composition of the general grade carbon steel that is used in our products, and reside beneath the surface finish of the product.

After Brennan Equipment and Mfg., Inc. products are sold to a customer, that customer becomes responsible for providing any Proposition 65 warnings for Brennan Equipment and Mfg., Inc. products to its own customers and employees in the state of California.

Brennan Equipment and Mfg., Inc. does not provide legal advice to customers, so customers should seek their own legal counsel on how to comply with all laws and regulations.
